# JOB TITLES SHOW WHERE YOU'VE BEEN. SKILLS SHOW HOW FAR YOU CAN GO.

Introducing Skill Explorer, a new job search tool that goes beyond job titles to find opportunities that match the skills and training you have – but in career fields you may not have considered. Skill Explorer shows you more options, and more options mean a better chance to find a job.

Skill Explorer is free and available anytime. If you're looking for new opportunities, go to [skillexplorer.wisconsin.gov](http://skillexplorer.wisconsin.gov) and discover the new Wisconsin job search today!

## Using Skill Explorer

Skill Explorer makes it easy to look for new career opportunities. You only need a working knowledge of your employment history. To get started, go to [skillexplorer.wisconsin.gov](http://skillexplorer.wisconsin.gov) and type in your current or past job.

Skill Explorer will match the title with other jobs that share common abilities and characteristics.

## Explore Matches & Compare Skills

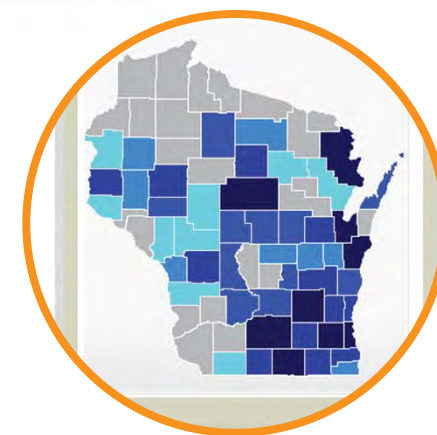

Skill Explorer doesn't just show you a list of current openings. It also helps you succeed by giving you all the information you need to make smart career choices. You can see new opportunities that relate to your work experience and learn about any special skills or training you might need before you apply for a job. The higher the percentage of shared skills, the closer the match.

Occupation overviews give you an insider's look at the career path you select. Find out what a worker usually does, how much they make, and what kind of training or educational background they have.

## Map the Match

Skill Explorer shows opportunity hot spots in Wisconsin for any occupation you select. Plus, you can search for current openings by county.

Employers all over the state are looking for smart, hard-working people like you. Skill Explorer lets you sort current openings by county. You can find new opportunities close to home or in other locations if you're looking to relocate.
